A Green Chemistry Company

Enabling U.S. Oil Independence

A PROFILE IN BIOBASED SUCCESS

Sustainability Action Points at Naval Air Depot

Green Base Initiative at Naval Air Depot North Island in San Diego

BPL™ - Bio Penetrating Lubricant Replaces WD-40!

Sustainability Action Points

BPL™ - Bio Penetrating Lubricant is being demonstrated for use at **Naval Air Depot (NADEP)** as a safer, more viable alternative to hazardous petroleum-based spray lubricants/penetrants, such as WD-40 and LPS#2.

NADEP North Island overhauls Navy aircraft.

Below are two slides relating to the use of United Bio Lube's Biobased Lubricants.

-- **Joint Service Environmental Management Conference, 2006**
Raymond Paulson, Naval Air Depot North Island

Appendix: Example Applications

- ◆ Green Procurement
- ◆ Pollution Prevention Source Reduction
- ◆ Utilize Bio-Solvents for Shop Use
 - To Replace Stoddard Solvent for Cleaning Bearings
 - Approval process performed by NFESC
- ◆ Utilize Bio Lube for Building Maintenance
 - Bio Penetrating Lube being demonstrated for use at NADEP (www.UnitedBioLube.us)
- ◆ Bio Lube Now Available for Many Applications
 - Superior lubrication for non-aircraft applications
 - Green Chemistry the new “Buzz Word”
 - (Photo next slide)

BIO LUBE APPLIED TO ALL LUBRICATION AREAS FOR A RACING TRUCK

BETTER PERFORMANCE THROUGH GREEN CHEMISTRY
